

MEEHNAAZ BASIT

Junior Front-End Developer

basit.meehnaaz@gmail.com | +880 179 496 2711 | [LinkedIn](#) | [GitHub](#) | Old Town, Dhaka, Bangladesh

SKILLS

- **Expertise:** React.js, JavaScript (ES6), HTML5, CSS3, TailwindCSS, Bootstrap
 - **Comfortable:** MongoDB, Express.js, Tanstack Query, RESTful APIs
 - **Familiar:** Node.js, JSON, JWT Authentication, Firebase, Versal, WordPress
 - **Tools:** Git & GitHub, Visual Studio Code, React DevTools, Figma, Canva
-

PROJECTS

Tourist and Travel Guide Platform

[Live Link](#) | [GitHub\[Client\]](#) | [GitHub\[Server\]](#)

- **Description:** Developed a tourist guide platform for Bangladesh travelers with user **authentication**, **role-based dashboards** (Admin, Tour Guide, Tourist), tour management, guide profiles, and **responsive design**. Responsibilities included **frontend and backend development**, **Firebase** and **MongoDB** integration, **CRUD** operations, and deployment readiness
- **Key Technologies:** React.js, Node.js, Express.js, MongoDB, Firebase, Tanstack Query, JWT

Library Management System

[Live Link](#) | [GitHub\[Client\]](#) | [GitHub\[Server\]](#)

- **Description:** Developed a full-stack library management system using **React** and **Express.js**. Users can browse, borrow, and post books. Integrated **Firebase authentication** for secure login and **Google authentication** for social login. Utilized **MongoDB for database** storage and **Daisy UI** for frontend components. Hosted on **Vercel and Firebase**.
- **Key Technologies:** React.js, Express.js, MongoDB, Firebase, Daisy UI, Vercel, TailwindCSS

Jute & wooden Crafts

[Live Link](#) | [GitHub\[Client\]](#) | [GitHub\[Server\]](#)

- **Description:** Developed a full-stack Art & Craft Store website, enabling users to browse, **add**, **update**, and **delete** craft items. Integrated **Firebase** authentication for **secure login** and **Google** authentication for **social login**. Utilized **MongoDB** for robust database management of craft item data and implemented **responsive** UI components with React.js and TailwindCSS.
 - **Key Technologies:** React.js, Express.js, MongoDB, Firebase, TailwindCSS, DaisyUI
-
